AMERICANA

HYDROPONIC GROW KIT

Includes: Planter, Agave Seeds, Net Pot, Grow Medium, Plant Food

INSTRUCTIONS

01  Remove all contents from Planter. Empty Grow Medium into Net Pot.

02  Rinse under water to remove dust. This will be messy, cover sink drain to catch debris.

03  Pour 2 cups of water into the Planter. Insert Net Pot with Grow Medium into the Planter.

04  Sprinkle Seeds evenly over top of Grow Medium.

05  Place in a sunny window. Set aside Plant Food; you'll need this after Seeds sprout.

06  Once sprouts appear, remove the Net Pot and empty water from the Planter. Refill with 2 cups water and $\frac{1}{8}$ tsp of Plant Food. Stir to dissolve. Return Net Pot to Planter. Change the water every 7-10 days.

Growing On

Repeat the Plant Food mixture 1x month. No need to transplant. Roots will grow through the Net Pot into the Planter.
